Before you write

Most questions are answered in the guides included with your download:

1. **Installation Guide** — installing, where data is stored, updating
2. **Quick-Start Guide** — first sale in ten minutes
3. **User Manual** — every screen explained
4. **Licence Activation** — keys, offline use, moving computers
5. **Troubleshooting Guide** — common messages and fixes

What to include in a support request

- Your Gumroad **order email** (never send your full licence key by email unless asked)
- App version (**Settings → About**)
- Windows version
- What you were doing, and the exact message shown — a screenshot helps
- For start-up problems: the `main.log` file described in the Troubleshooting Guide

What support covers

- Installation, activation and licence transfer
- How to use any feature
- Problems restoring backups

- Bug reports

Support does not include accounting, tax or legal advice, or data entry on your behalf.

Your data and privacy

Your shop data is stored only on your computer. We cannot see it and cannot recover it for you — **please keep regular backups**. If you send us a backup file for troubleshooting, it is used only for that purpose and then deleted.

Refunds
