Licence Activation

Where is my licence key?

Your key is in the **receipt email from Gumroad** and on your Gumroad **Library** page for this product. It looks like this:

`1A2B3C4D-5E6F7A8B-9C0D1E2F-3A4B5C6D`

Activating

1. Make sure the computer is connected to the internet (needed only for this step).
2. Open **Settings → Licence**.
3. Paste the key into **Activate software** and click **Activate**.
4. The status changes to **Licensed**.

Trial

Without a key the app runs as a full-featured trial for **14 days**.

Working offline

The software is designed for shops with unreliable internet.

- After activation, everyday work — inventory, sales, invoices, reports, backups — needs **no internet at all**.
- When a connection happens to be available, the app quietly re-checks the licence about once a week.
- It keeps working for up to **30 days** without a single successful check.
- After that it asks you to connect once and click **Verify now**.

Your data is never locked. If the trial ends, the offline allowance runs out, or a licence is refunded, the app switches to a restricted mode in which you can still **open, view, search, print, export and back up everything**. Only creating new records is paused until the licence is valid again.

Messages you may see

Message	What it means	What to do
This licence key is not valid for Mobile Shop Manager Pro	The key was mistyped or belongs to another product	Copy and paste it from the receipt email
Could not reach the licence server	No internet connection, or a firewall is blocking it	Connect and try again; allow `api.gumroad.com`
…because the purchase was refunded	The order was refunded or charged back	Purchase again or contact support
…because the licence was disabled by the seller	The seller disabled the key	Contact support
…already been activated the maximum number of times	The key is in use on other computers	Remove it from an old computer or contact support
Verification needed	More than 30 days since the last online check	Connect to the internet and click **Verify now**

Moving to a new computer

1. On the old computer: **Backup & Restore → Back up now**, and copy the backup file to a USB drive.
2. On the old computer: **Settings → Licence → Remove licence from this computer**.
3. Install the app on the new computer and activate with the same key.
4. **Backup & Restore → Restore from a backup file…** and choose your backup.

Privacy

The only information sent over the internet is your licence key, to Gumroad's licence service, to confirm the purchase. No shop, customer or sales data ever leaves your computer.
